

If a match was head-to-head, then a win is 1 win. If it is a round robin, then every win in the round robin is 1/2 win. (since we only play 4 boards against each team and we play 2 teams for 8 boards, and head to head is one team for 8 boards). The victory points for a round robin are divided in half since we are getting victory points for 2 games and had to head they get victory points for only one game.
